High performance PVC compounds & alloys

PVC COMPOUND DATA SHEET

GRADE: CRT07C/062 SILVER J192

DESCRIPTION: Calcium/zinc stabilised, medium impact, gloss finish rigid extrusion compound. This material contains no heavy metals or polybrominated materials and therefore, complies with the RoHS Directive (2002/95/EC) in this respect

APPLICATION: In suitable colours, profiles for a range of internal and external applications including window and conservatory ancillary products. This material may also be used as a durable skin compound when co-extruded onto a suitable substrate.

COLOURS: Silver J192 in this case (which is a colour not suitable for external applications). However the same base can be supplied in White or other colours matched to the customer's requirements.

Property	Test Method	Units	Value
Specific gravity	BS2782 620A	g/cc	1.44
Vicat softening point	BS2782 (B50) 1990 120B	°C	79
Tensile strength @ yield	BS2782 320C	MPa	44

Please note that the above figures are typical values and do not constitute any part of a product specification.
